

## IMPORTANT NOTICE

**TO: All Residents, Businesses, Builders, Contractors and Others**

**FROM: Village of Northfield**

**DATE: June 30, 2010**

**RE: Roll-off Containers for Construction Debris and Other Use**

The Village of Northfield has an exclusive contract with Waste Management Northwest for the removal of all waste, recycling, landscape materials and other debris including construction debris, large household items, etc. but not including hazardous waste. By having an exclusive contract, the Village is able to keep costs down for its residents and businesses and minimize the disruption of having various haulers on the streets more than twice a week. The decision to use a single hauler was made by the Village Board over ten years ago and has worked well in Northfield, a small community with many narrow, private roads.

Northfield's exclusive refuse contract also applies to the use of roll-offs by residents, businesses, contractors and anyone needing these large commercial containers whether on a temporary or more regular basis. ***Anyone applying for a construction permit is obligated to honor this exclusive contract and contact Waste Management (1-630-595-4805 or 1-800-796-9696) to request a roll off. Use of any other company's roll off is PROHIBITED and can result in a delay in the project.***

**For May 1, 2010 to April 30, 2011 roll-off prices per haul**

15 yard	\$333.00 (added 6/30/10)
20 yard	\$393.00
25 yard	\$465.00
30 yard	\$537.00
40 yard	\$562.00

*(Each roll off has a maximum weight of five (5) ton except the 15 yard which has four (4) tons. A \$46.00 per ton charge will be assessed for each ton over the maximum weight.)*

There will be an additional charge of \$50.00 per week for the container for each week after the first seven (7) days.

***NOTE: When ordering a roll-off container, the caller should let customer service know the Northfield address where the project is located to get special Northfield pricing.***

*Waste Management will provide a roll-off dumpster within twenty-four (24) hours when the order is placed during business hours, 8:00 a.m. to 5:00 p.m. Monday through Friday. If Waste Management fails to respond two (2) times on any given order after 24 hours and notification to the Village Waste Liaison, the first seven (7) days of rental will be without charge per Waste Management.*
